

How To Measure Your Kitchen

Before You Start

Please be sure to read '**How to Use Our Measuring Guide**' at <https://cabinetnow.com/how-to-measure-your-kitchen/>.

Follow these 5 Simple Steps

Our easy to use Measuring Guide is a convenient place to store and organize the information you gather, as you're collaborating with your designer and planning for your project. Use these tools to sketch out your idea or to present us with a drawing of your own. If you have questions or need assistance just give us a call at 1-855-669-6609.

Step 1: Sketch the outline

Sketch the basic shape of your kitchen. Be sure to include any obstacles or structural features.

Step 2: Fill it in

Next, draw in any doorways, windows, or other features that will dictate where you can install your cabinets. Mark everything clearly and create labels for each measurement of where cabinets will be installed (see example on this page).

Step 3: Measure

Finally, break out your tape measure and record measurements for all of the openings you labeled in the step above. Measure from outside edge to outside edge. If need be round up to the nearest inch. Remember this is just to get started with your design, and we can get exact measurements as we progress.

Step 4: Add your appliances

You should have an idea for where your appliances will be; for example: sink, dishwasher, refrigerator, or any other appliances. Make sure to include them in your drawing, with the measurements of them.

Step 5: Snap Some Pics!

Now that you have your sketch, take some pictures of your space and send them our way! You can email your pictures and design to design@cabinetnow.com. Put "My Kitchen Design" or something similar in the subject line and our kitchen designers will get to work!

Your Sketch
(Feel free to use and attach your own paper)

Your Name: _____

Your Door Style: _____

Your Phone: _____

Your Sales Representative:_____

Your Email: _____

Ceiling Height:_____

*Don't worry about making this perfect, just communicate your idea as clearly as you can.

Send Us Your Designs

Here are two easy ways to submit your measurements, sketch, and photos and let our experts handle the rest!
